

Thompson Celebrates the Next Generation of Innovators: 2026 Draw the Future Winners Announced!

For 36 years, The Thompson Organization has been inspiring young minds through its annual Draw the Future Contest— which encourages local K-6th grade students to envision the next-generation Toyota, Lexus, or BMW. For the first time, a separate contest was held in Montgomery County to accommodate the growing participation!

With an impressive display of imagination and artistic talent, 21 outstanding winners were selected—three from each grade level—earning top honors for their futuristic vehicle designs. On Wednesday, April 22th, the winners gathered at Thompson Toyota in Doylestown for an exciting awards ceremony, celebrating their achievements and unveiling their artwork.

The Grand Prize Winner, Anna W., a talented 1st grader, has her award-winning design featured on a large banner at the 313 exit off 611 in Doylestown, where it will be displayed until May 30th for the entire community to admire. Thompson is honored to support young artists and innovators, and we can't wait to see what the future holds for these creative thinkers. Congratulations to all the winners—your imaginations are shaping the road ahead!

3rd Place Winners
